THIS IS MORE THAN JUST A BREAST CANCER CASE

This is Brittany—a graphic designer, the *favorite* aunt and a wordsmith who finds release putting her thoughts on paper.

She's confident in having a nationally recognized, specialty-trained team of cancer experts by her side for the fight of her life—all just a few miles from her home.

Brittany's goal is to write and illustrate her first book, cancer free. At Gwinnett Medical Center, we make that possible.

She is more than just a patient.
