Fertility-Sparing Gynecologic Cancer Treatment

The multidisciplinary model of care employed at the Orlando Health UF Health Cancer Center is also used for the treatment of gynecologic cancers, including ovarian, uterine, cervical and others.

Minimally invasive techniques for the diagnosis, staging and treatment of cancer are used whenever possible. This results in less pain, a shorter hospital stay and faster return to normal activity. Orlando Health UF Health Cancer Center is also one of the few cancer centers in Central Florida to provide patients with fertility-sparing surgery options for certain gynecologic malignancies.

A Proven Leader in Cancer Care

Orlando Health UF Health Cancer Center has been recognized for providing the best in patient-centered, integrated care supported by top cancer doctors, medical teams, researchers and leading-edge treatments.

- Cancer Center of Excellence designated by the State of Florida Department of Health (2015-present)
- Accredited by the National Accreditation Program for Breast Cancer Centers (2013-present)

Cancer:
Knowing Your Risk Can Help with Prevention

Approximately 5-10 percent of all breast cancers develop due to genetics. The Genetics and High Risk Center at Orlando Health UF Health Cancer Center offers genetic assessment, counseling and testing for individuals with a personal or strong family history of cancer.

Should you find you are at-risk, at our Cancer Genetics and High Risk Center, you can receive comprehensive care based on the most up-to-date cancer prevention guidelines. Our knowledgeable physicians provide ongoing care and surveillance to reduce your risk for developing breast cancer.

Lung Cancer Screenings

Lung cancer is the leading cause of cancer-related deaths in men and women.

Symptoms of lung cancer include a persistent cough, ongoing chest pain and difficulty swallowing. Even if you don't have these symptoms, you should be screened for lung cancer if you:

- ☐ Are between 55 and 77 years old
- ☐ Have a smoking history of more than one pack per day for over 30 years
- ☐ Currently smoke or quit less than 15 years ago

Lung cancer screenings are available at Orlando Health locations in Orlando, Ocoee, Longwood and Clermont. To schedule an appointment for a screening, call 407.648.5384.
