

It's like I've got 300 kids. I'm a crossing guard in Pawtucket and they come to me with every problem they have. They even invited me to the middle school dance! And I'm so happy to be going after some crazy medical issues: I almost lost my arm, and then four years to the day I almost lost my, well, everything. But I love my doctors at Rhode Island Hospital and I love my kids—they sent me like a thousand cards.
