

# The Power of PARTNERSHIP

CentraState Healthcare System values partnerships—with our patients, physicians, employees, and community. Our focus on strengthening those relationships is the reason behind our new partnership with Atlantic Health System, one of the leading health care organizations in New Jersey.

Guided by a common vision and shared spirit of innovation, this unique partnership will help us expand our expertise, services and resources—creating a stronger CentraState and a healthier future for our community. And there's nothing more powerful than that.
