**1,900+**  
**CANCER**  
**PATIENTS**

With more than 1,900 patients diagnosed and treated annually, the GMC Center for Cancer Care, has earned the trust of our community when they need it most.

From genetic testing and medical oncology to surgery and support services, we're there with you every step of the way. With each individual cancer case analyzed by a multi-disciplinary team of 10+ experienced oncology physicians, we provide personalized care that ensures the best possible outcomes.
