

Stroke is the leading cause
of death in women. We're the
leader in treating it.

PART OF THE  University of
Alabama System

When stroke symptoms appear, getting treated quickly can make all the difference. UAB Hospital is home to Alabama's first Comprehensive Stroke Center, and we now have eight stroke-ready facilities throughout the state, including the UAB St. Vincent's Birmingham Primary Stroke Center. If you or a loved one may be having a stroke, don't wait – call 911. Get fast treatment close to home from the experts at UAB.
