

# What is Hospice?

## Hospice Is A Journey of Care

Hospice is not a place, but rather a philosophy that focuses on the well-being of the whole person. When a patient's prognosis with a life-limiting illness is six months or less, it is time to consider hospice.

## Is Hospice The Right Thing to Do?

If you are looking into hospice, it means you are coming to terms with the end-of-life journey for you or someone for whom you care. Understandably, people find this stressful and struggle with new, unfamiliar responsibilities. As overwhelming as it may seem, choosing hospice will be a wise choice. As your trusted partner on the journey of care, we will bring compassion and hands-on support in the difficult days ahead.

## We Are The Hospice of Choice

We are recognized as a national leader in hospice and palliative care, and have helped more than 75,000 patients since we opened our doors over forty years ago.

## We Provide Quality Care Where You Are

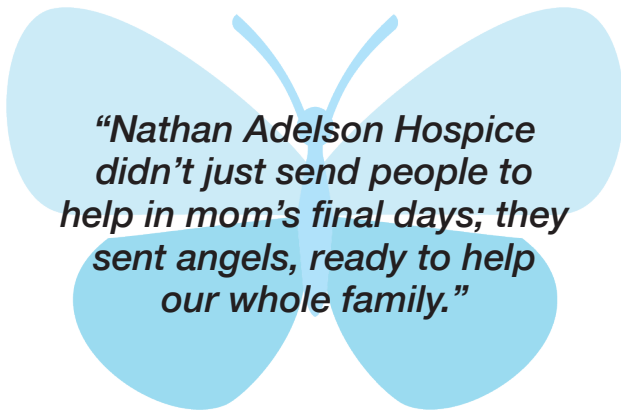

Our clinical staff offers support 24 hours a day, seven days a week. Our inter-disciplinary teams provide care to private residences, hospitals, assisted living centers, and nursing homes. We have two inpatient locations in the Las Vegas Valley – our 20-bed Swenson facility and our 18-bed Tenaya facility.

## Nathan Adelson Hospice Is A Non-Profit

We raise funds to provide care to uninsured and underinsured members of our community and support needed programs and services such as meal delivery, complementary therapies, transportation, and families in need.

## We Have Traveled This Path Many Times

Nathan Adelson Hospice partners with patients and families to bring relief, comfort, and dignity. Our vision is that *no one end the journey of life alone, afraid or in pain.*

*“Nathan Adelson Hospice didn’t just send people to help in mom’s final days; they sent angels, ready to help our whole family.”*

## Our People Make the Difference

We have been recognized by *Modern Healthcare* as one of the 100 Best Places to Work in the country eight times in the last decade.
