

Trilogy Health Services: Putting Family First

If you don't know anything about Trilogy Health Services, you can learn a lot from the company's *tagline*: "Where Family Comes to Live." Every resident, loved one, employee, and visitor is treated like family at Trilogy. This is true for every one of their multiple locations in Louisville. From the moment you enter the door at any Trilogy Senior Living Community, you're greeted with warmth. It's this culture of compassion that makes Trilogy different.

Trilogy's services range from Independent Living villas and apartments to Personal Care and Assisted Living services, Rehabilitation, Skilled Nursing and Short-Term Care services, and even Memory Care. At Trilogy, every level of care provided is delivered by people who take the time to learn the story of every person they serve. These life stories are then used to inform the programming Trilogy offers at every community.

But the company's dedication to enriching lives doesn't end there. Through its partnership with the nonprofit Live a Dream, Trilogy strives to fulfill the wishes of its residents. Recently, Live a Dream worked with WAVE 3 to get resident Barbara in front of the camera!

Barbara was featured on WAVE 3 Listens Live! where she spoke to John Ramsey about her friends, her passions, and her love for living in the present. "I don't want to go back to when I was 18—I want to stay right here," she commented. "This is the best part of my life."

And in the end, that is Trilogy's goal—to create communities where seniors can fully enjoy life. To find a Trilogy Senior Living Community near you and schedule a tour, visit trilogyhs.com.
