

## There are 525,600 minutes in a year. 30 of them could save your life.

It's time to get your next mammogram scheduled.

One mammogram a year is all it takes to stop breast cancer in its tracks and improve the odds of beating it. As one of only three National Cancer Institute (NCI) Designated Comprehensive Cancer Centers in New England, Dartmouth Cancer Center is proud to deliver the most personalized, compassionate and advanced care available. All from right here, close to home.

**Don't delay - schedule your screening today at**
