## Core Values

Aspirational  
Living

We believe life is meant to be fully lived, so we seek enjoyment and purpose every single day.

Smart  
Compassion

We believe in leading with the head and heart to help others in positive, meaningful, and constructive ways.

Celebrating  
Individuals

We believe everyone comes to us with a rich life story collected from experiences, and we are honored and excited to be part of writing the next chapter together.

Uncompromised  
Care

We believe in doing the best for our residents in every situation. We relentlessly pursue best practices in methods, experiences, and services.

Empowering  
Connections

We believe there is great power in personal connection, so we actively create a culture to foster community.

# Write Your Story

**Anthology Senior Living empowers residents to live life to the fullest.**

Imagine enjoying your morning coffee in a beautiful, enclosed courtyard with neighbors as you discuss plans for the day: taking a stretching class, checking on your garden's growth, and attending a dinner party followed by a movie down the hall. Before retiring to bed, you check the calendar of upcoming activities, which includes a drumming circle, trivia, and costume party with live music.

This is life at Anthology Senior Living, where residents enjoy a vibrant, engaging environment with unparalleled service and amenities.

"From assisted living to memory care, our communities are purposefully and beautifully built with the specific needs of seniors in mind," says Jamie Smith, director of sales and marketing at the Rochester Hills location. "It's like a cruise ship on land because we offer so many options for activities, friendship, fun, and food."

Anthology creates opportunities for seniors to live life to the fullest. "We empower our residents to live days they will love," Smith says. "Everyone has a life story worth celebrating, and we love helping seniors fill every day with joy and purpose."

As a boutique-inspired senior living

experience, residents at Anthology have sophisticated, well-appointed accommodations, highly personalized care, and gourmet cuisine—all in the company of nurturing caregivers.

"Depending on the needed level of care, residents can choose between a variety of floorplans with contemporary design and elegant decor," Smith says. "In memory care, the rooms are organized along a circular hallway, so seniors can walk without becoming

lost or disoriented. Assisted living meals are made-to-order, restaurant style, without any set meal times, and memory care residents enjoy different gourmet options for each meal. We also have a licensed nurse and highly trained caregivers available 24/7."

Families can stay connected to a loved one's activities through a state-of-the-art app

monitored by caregivers. "We feel honored to be trusted with the well-being of our residents," says Smith. "It is a joy to often hear from family members statements like, 'Mom loves living here!'"

"We know Anthology is our residents' home, and our team exists to help them write their next meaningful chapter of life."
