

Every second counts when it comes to stroke care.

Balance suddenly lost

Eyes suddenly blurred

Face droops on one side

Arms suddenly weak

Speech slurred, confused

Terrible, sudden headache

A stroke is a medical emergency. If you believe you or a loved one is exhibiting any symptoms of stroke, note the time symptoms first occurred and call 9-1-1.

STROKE SYMPTOMS? **B.E. F.A.S.T. AND CALL 9-1-1.**

Getting help from trained stroke professionals as soon as possible is critical in determining the level of recovery you will have.

The certified Comprehensive Stroke Center at Saint Francis Hospital in Tulsa is ready 24/7 with a specially trained stroke response team of emergency physicians, nurses, neurosurgeons, neurologists, neurointerventionalists, technicians and other staff members. They have the expertise and experience to quickly assess and treat the cause of the stroke.
