## BEAUTY FOR EVERYBODY.

**“PLASTIC SURGERY IS LIFE CHANGING, AND THE GOAL OF OUR ENTIRE PRACTICE IS TO OFFER PERSONALIZED, PROFESSIONAL SERVICE WHERE PATIENTS FEEL CONFIDENT, HAPPY, AND BEAUTIFUL.”**

– SCOTT WRYE, M.D.

At Hall & Wrye Plastic Surgeons, breast augmentation and abdominoplasty, often referred to as tummy-tucks, are procedures that their expert team often refers to as the more popular amongst patients. For mothers, giving birth can be one of the most rewarding experiences of a woman's life. However, pregnancy and breastfeeding often result in unwanted changes in a woman's body, such as sagging breasts, enlarged areolas, changes to the size of their waist, pockets of fat in the abdomen, stretch marks, and a sagging tummy that no amount of exercise and dieting seems to fix. The loose muscles and stretched skin improve somewhat over time, but the body never ultimately returns to the way it was before pregnancy, resulting in lower self-confidence.

Wrye notes, “Women were once resigned to live with these natural changes in their bodies. However, more women seek out plastic surgeons to rejuvenate their breasts and tummies to the youthful firmness they enjoyed before having children.

These procedures are collectively called ‘mommy makeovers’ or post-maternity breast and body reshaping. Restoring a youthful figure is obtainable, and with professional guidance, it is a process that the Hall & Wrye team makes easy for the patient, with spectacular end results.”

In addition to mommy makeovers, Hall & Wrye Plastic Surgeons specialize in all aspects of surgery, including body cosmetic and reconstructive surgery, facelifts, neck lifts, facial implants, hair restoration, BOTOX®, facial fillers, and more. In addition, they can contour the body and enhance the face to achieve natural-looking results.

**WE UNDERSTAND THAT PEOPLE DO NOT WANT TO LOOK DIFFERENT; THEY WANT TO LOOK AS GOOD AS THEY FEEL AND BE THE BEST VERSION OF THEMSELVES. SO IT IS POSSIBLE TO LOOK LESS TIRED, MORE YOUTHFUL, AND MORE CONTOURED. OUR GOAL IS TO ASSIST THEM TO GET THERE.**

– WESLEY HALL, M.D.
