

**We always  
put you first.**

Isn't it time  
you did too?

**Schedule your  
annual mammogram**

We know it's hard to make time for yourself, but peace of mind is worth it. Preventive care and wellness screenings can detect and diagnose health issues like breast disease and cancer. Schedule your annual mammogram, especially if your family has a history of breast cancer, you take hormone therapy or if you are over 40.
