

# This is where our vision of a cancer-free life, comes to life.

When it comes to cancer care, you deserve to know that you are in the right place.

Baylor St. Luke's Medical Center is the clinical home for the Dan L Duncan Comprehensive Cancer Center at Baylor College of Medicine, site of the largest clinical genetics program in the nation. This means that when you need the most advanced care, latest clinical trials, and leading-edge surgical techniques, we are here by your side with the tools to help.

Combining compassion with precision to bring our vision of a cancer-free life into reality.

# Nationally recognized cancer care in Houston

Baylor St. Luke's Medical Center's Dan L Duncan Comprehensive Cancer Center at Baylor College of Medicine consistently ranks nationally as one of the top cancer centers, and it is one of only three NCI-designated Comprehensive Cancer Centers in Texas. Patients at Baylor St. Luke's receive personalized care and have access to the advanced treatments they need when facing one of the most important events in their lives.

- Nurse navigators and concierge services
- Genetic testing and counseling
- Same-day biopsies
- One-on-one, personalized care
- Coordinated appointments, so you can see multiple specialists on the same day

## Advanced cancer care designed with you in mind

With the opening of the O'Quinn Medical Tower at the McNair Campus, we have even more room and technology to continue bringing the best in cancer care to our patients. We are investing in more than just physicians and facilities. We are investing in patients and recoveries.
