

WESTCHESTER COUNTY HEALTHCARE

THE ENCLAVE AT RYE

REHABILITATION & NURSING CENTER

1000 High Street, Port Chester, NY 10573 | 914-937-1200 | TheEnclaveRehab.com

The Gold Standard of Care

The Enclave at Rye Rehabilitation & Nursing Center has earned a shining reputation for state-of-the-art subacute and skilled nursing care in a soothing, innovative environment.

The Enclave at Rye is proud to offer patients the use of their community's HydroWorx system, an aquatic therapy machine designed as an additional resource for those healing under their care.

When you or a loved one needs help with healing, it's important to choose a trusted provider with high-quality services, a track record of excellence, and a continual pursuit of best practices within a warm and encouraging atmosphere. In Westchester County, that provider is The Enclave at Rye.

The Enclave at Rye stands apart from other skilled nursing and rehabilitation centers through its innovative and signature programming, including the Urban Zen Integrative Therapy program, cofounded by Donna Karan, which offers one-on-one reiki, essential oil, and yoga therapies to patients, residents, and staff. Also, The Enclave at Rye offers the Comprehensive Amputee Rehabilitation Program to all patients learning to walk again, with mentoring and subacute

support from Paralympic Gold Medalists Todd Schaffhauser and Dennis Oehler.

The Enclave at Rye also offers unique healing opportunities such as their underwater HydroWorx treadmill, incredible Recreation programming, a signature Concierge Services program for all patients, residents, and staff, as well as offers an array of comfort-enhancing services and amenities as patients heal in their warm and optimistic setting.

Caring for Caregivers

Leadership at The Enclave at Rye recognizes the importance of caring for those who are caring for others, offering multiple staff recognition programs to express appreciation and reward exceptional service.

The peer-to-peer Signature Token Program enters team members in drawings for prizes such as luxury handbags

and all-inclusive vacations during Nursing Home Week, celebrated each year during the month of May. The Signature Ray of Sunshine Program is a platform for patients and their families to recognize team members who

have gone above and beyond.

Staff are also treated to appreciation events in their Madison Square Garden Gratitude Suite and VIP experiences with the New York Yankees.

"Our mission is to foster unprecedented levels of genuine care and customer service for our three rings, our incredible team members, our patients, and our families," says Ashley Romano, Chief Experience Officer. "We stand apart from other providers through our innovative programming, our forward-thinking leadership, and our exceptionally talented and caring team members."
