

**Ginny**  
CARON ALUM

# “CARON TRANSFORMED MY LIFE IN WAYS I NEVER DREAMED POSSIBLE.”

**Ginny’s journey reminds us that recovery is possible, and that the right care can change not just one life – but an entire family.**

For the women who care for everyone else, it’s okay to let someone care for you. If you or someone you love is living with **addiction and co-occurring mental health disorders**, Caron can help. As a non-profit treatment center with nearly 70 years of expertise, we provide in-network, evidence-based care that helps families heal – together.
